HARDWARE OBSOLESCENCE POLICY NOTICE

Staubli TX60 and TX90 Robot Arm
Staubli CS8C (TX60 and TX90) Controller

HighRes Biosolutions 52024
AD-TX3-240825_02_RevB

Hi there,

At HighRes Biosolutions, our mission is to provide our customers with automation that makes life better. We do so by remaining at the leading edge of automation hardware, software, and service innovation. Due to ongoing progress and factors like supply and logistics issues, we occasionally need to phase out older products, including those listed below.

Staubli TX60 and TX90 Robot Arm Obsolescence

Effective immediately, Staubli has informed us that the TX60 and TX90 robot arms reached their End Of Life (EOL) date in January 2021.

Staubli CS8C (TX60 and TX90) Controller Obsolescence

Effective immediately, Staubli has announced that the CS8C (TX60 and TX90) controller reached its End Of Life (EOL) date in January 2021.

We will continue to provide first-rate service contract support until January 2028 per the Staubli EOL policy **FSB-000057**, after which time we will make every commercially reasonable effort to support these products.

For additional detail and specifications on suggested replacement products, we encourage you to connect with your local HighRes Account Manager. For questions regarding your HighRes product service please contact your regional Customer Support or your local HighRes Account Manager.

We remain eager to empower your productivity, convenience, and robust data through our exceptional products and services.

Warm Regards,

Brian O'Sullivan

Senior Vice President of Commercial
